## Danube:Future Interdisciplinary School (DIS)

“Cultural and social implications of global change on the Danube River Basin”

July 14<sup>th</sup> - 21<sup>st</sup> 2017 | Danube University Krems

[www.danubefuture.eu/2017-edition](http://www.danubefuture.eu/2017-edition)

Global change processes, such as climate change, digitalization, migration movements and economic crises, are among the greatest challenges of our time and also shape the Danube macro-region as a specifically challenging region of Europe. As part of the Danube:Future Interdisciplinary School 2017 in Krems 28 PhD-students and young scientists from Alps-Adriatic Rector's Conference and the Danube Rector's Conference universities will discuss these questions and develop research proposals within this broad context. The Danube:Future Interdisciplinary School is part of the Capacity Building Module of the Danube:Future project.
